like snapchat and igtv the convention on tiktok is to upload vertical videos the ideal aspect ratio is 1080x1920 write a suitable description of each video and include relevant hashtags pick an exciting thumbnail image for each video make sure you pick the most appropriate categories for your videos

promote your videos on your other social channels and your blog too if you have one the more people who know about your content the more will watch and like it the more you promote your content the more additional followers you are likely to gain and the closer you will be to being considered an influencer

no need to give an introduction about tiktok i know that but there might be people who came here out of curiosity because we are talking about making money that will fetch some users to have a read so basically tiktok is a mobile app platform developed by a chinese firm called bytedance tiktok was previously musical ly and then the developers decided to release tiktok which is a better version of musical ly you can post tiny videos of maximum 15 seconds in this app you can join these tiny videos together to post a video of maximum 60 seconds and now you can also get tiktok coins on your account i think the team is going to add more features soon

tiktok coins can only be purchased directly from within the app the price usually sits around 100 coins for 1 but it does fluctuate as tiktok adjusts the prices for inflation and maximum profitability

obviously the higher your engagement rate the more successful brands will consider you and the higher they will be willing to pay it is difficult to find overall engagement rates for tiktok all the published ones appear to wrongly equate engagement with the percentage of people opening the app once a day however like most social media networks you can calculate your individual tiktok engagement with the following formula number of hearts number of comments number of followers x100 you can calculate this either for a single post or overall we suggest that you add together the figures for your last 20 posts when you make this calculation overall

you will also want to set up a consistent pattern so that your audience knows what to expect there's little point in being a one hit wonder if people know to expect a specific type of video for you each tuesday and friday they will begin to expect it and return to tiktok on those days to watch your latest video they are also more likely to tell their friends about you widening your audience further

i m giving you an awesome website to get tons of tiktok coins for your account wondering how people are making money on tiktok this article will clear all your doubts about that time to earn some bucks
