obviously the higher your engagement rate the more successful brands will consider you and the higher they will be willing to pay it is difficult to find overall engagement rates for tiktok all the published ones appear to wrongly equate engagement with the percentage of people opening the app once a day however like most social media networks you can calculate your individual tiktok engagement with the following formula number of hearts number of comments number of followers x100 you can calculate this either for a single post or overall we suggest that you add together the figures for your last 20 posts when you make this calculation overall

like snapchat and igtv the convention on tiktok is to upload vertical videos the ideal aspect ratio is 1080x1920 write a suitable description of each video and include relevant hashtags pick an exciting thumbnail image for each video make sure you pick the most appropriate categories for your videos

the tiktok coins club generator is one of the more infamous tiktok generator websites online and like all of the other websites and services that claim to give you free coins it should be avoided at all costs

the tiktok money calculator allows you to calculate your estimated earnings from your tiktok account if you believe you are an influencer based on your engagement and number of followers this is for the western version of tiktok not the chinese version douyin

the easiest way to determine how much you could potentially earn from tiktok is to enter your username in our tiktok influencer engagement and earnings calculator which you will find near the top of this post we developed this tool to provide potential earning guidelines to influencers ultimately a brand and an influencer negotiate what they consider to be fair value we stress that this is only an estimation and can vary greatly by niche country audience location and audience brand affinity

no need to give an introduction about tiktok i know that but there might be people who came here out of curiosity because we are talking about making money that will fetch some users to have a read so basically tiktok is a mobile

app platform developed by a chinese firm called bytedance tiktok was previously musical ly and then the developers decided to release tiktok which is a better version of musical ly you can post tiny videos of maximum 15 seconds in this app you can join these tiny videos together to post a video of maximum 60 seconds and now you can also get tiktok coins on your account i think the team is going to add more features soon

tiktok is very strict with moderating their platform and have been known to completely shut down and delete accounts that they suspect of hacking or cheating even if these tiktok coin generators systems worked they wouldn't be worth the risk
