

UNIVERSITY  
of HAWAII  
FOUNDATION

2012  
ANNUAL REPORT

## LEAVING A LEGACY

*Aloha,*

*It takes a noble person to plant a tree that will provide shade for people he or she may never meet. This is what it means to leave a legacy.*

*Last year, my wife Claire and I had the honor of giving the commencement address to the University of Hawai'i at Mānoa Class of 2012 and spoke of all of our responsibility to leave legacies. We reflected on how our own college experiences provided the foundation and direction for our lives, and how others had supported our journey.*

*We enjoyed our educational opportunities because years before, persons very much like yourself and other generous donors to the University of Hawai'i envisioned the future and left legacies. The University of Hawai'i of today represents the layers of many generations; we see their vision around us in the buildings, programs, and opportunities that began as mere ideas, wishes for something better.*

*One outstanding example that resonates with Claire and me as Native Hawaiians, is the enrollment of Native Hawaiian students at the University of Hawai'i. Just a few generations ago, Native Hawaiian students were a small minority. Thanks to decades of financial and academic support, Native Hawaiians now make up one fourth of the University of Hawai'i's student population. This kind of achievement is remarkable and is to be applauded.*

*Looking ahead, we appreciate your planting of the humble seed that will someday grow into a great tree, bringing even greater opportunities in years to come. We thank you for leaving a legacy for our University, our Hawai'i and our future.*

*Mahalo Nui,*

*J. Kūhiō Asam, M.D.  
Chair, University of Hawai'i Foundation, Board of Trustees*

*Cover photo and image above courtesy of 'Imiloa Astronomy Center's 'Aukai 'Imiloa youth program.*

FOR OUR UNIVERSITY. OUR HAWAII. OUR FUTURE.

## LIGHT OF KNOWLEDGE

*Aloha,*

*Last year, we unveiled the new University of Hawai'i Foundation logo. The stylized torch symbolizes our mission to uphold the University of Hawai'i's light of knowledge, and to unite donors with the University's aspirations with integrity, accountability and trust.*

*Looking ahead, donors to our University are indeed lighting the way. This past fiscal year, we saw many gifts that build on donors' strong passion for their chosen fields. Generous scholarships in the areas of food service, medicine, nursing, travel industry, athletics and accounting are enabling promising students to follow in the footsteps of their benefactors.*

*In recognition that the passion for learning begins in childhood, forward-thinking donors are helping the 'Imiloa Astronomy Center of Hawai'i and UH Hilo inspire youth throughout the Big Island and the state. By fostering their sense of wonder and appreciation for science and culture, we are helping build the pipeline of future successful UH graduates.*

*As Hawai'i and the world face world-wide issues, donors to the University of Hawai'i are challenging the next generation to seek cures for cancer, address issues of ethics and social justice, and increase the knowledge of ocean science and land conservation.*

*These gifts are just the flicker of the flame that is illuminating the path for Our University, Our Hawai'i and Our future.*

*Mahalo,*

Donna Vuchinich  
*President & CEO, University of Hawai'i Foundation*

## INSPIRED BY INNOVATION

*Aloha,*

*America's universities play a vital role in the prosperity, security and advancement of our nation. To continue at the forefront of research and development requires vigorous public and private partnerships to address subjects that are of great concern in the 21st century.*

*The University of Hawai'i is uniquely positioned to address national issues such as sustainability, agricultural advancement and health sciences including diabetes and obesity in native populations. Our recognition as an international leader in earth and ocean sciences and astronomy affords the University of Hawai'i considerable opportunities to shine the light on new and important discoveries.*

*Strategic public-private partnerships are helping UH build on areas of research excellence and nurture innovation, while preparing our graduates for meaningful careers in an increasingly competitive, global environment.*

*As Hawai'i's public university, we are proud of our accomplishments, excited about our potential for the future and grateful for your support.*

*Mahalo,*

Dr. M.R.C. Greenwood  
*President, University of Hawai'i System*

# IMPACT ON STUDENTS

*Thanks to generous support from the Kaneta Foundation, 21 Hawai'i students are enrolled in a new program at Kapi'olani CC and receiving a transformative college experience through the King William Charles Lunalilo Scholars Project.*

THE ECONOMIC CHALLENGES OF THE PAST FEW YEARS HAVE NOT dampened the resolve of Hawai'i's college students, nor weakened the will of their supporters. Committed to the University of Hawai'i's role in higher education, generous benefactors have helped make it possible for promising students to pursue their passions, regardless of financial circumstances.

In 1997, Evelyn Siu Foo established the first family scholarship at the University of Hawai'i. Touched by the effect of their scholarship, the family has funded three more. In this report, we include an interview with former Miss America Angela Perez Baraquio Grey, one of the Foo family scholarship recipients who are now giving back to our community as proud alumni.

What better way to nurture up-and-coming talent than a scholarship that rewards excellence in their chosen field. Companies including SSFM, DFS Hawaii, James A Hassett/Ernst & Young and Saltchuk Resources are paving the way for current and prospective employees.

To many students, college seems simply unattainable—financially or academically. Kalaeloa Partners, L.P. and the Kaneta Foundation are

opening the door for students who are eager to learn, helping them onto a career path beyond the barrier of minimum wage.

The Hawaii Food Industry Association Foundation, aka HFIA Rainbow Fever Program, is supporting student-athletes at UH Mānoa and UH Hilo and providing educational opportunities through the gateway of collegiate sports.

IN ACADEMIC YEAR 2011-2012, THE UH FOUNDATION PAID OUT MORE THAN 3500 AWARDS (SCHOLARSHIPS, FELLOWSHIPS, AWARDS, AND GRANTS) TO OVER 2800 STUDENTS. SOME STUDENTS RECEIVED MULTIPLE AWARDS.

OVER \$10 MILLION WAS AWARDED TO STUDENTS STATEWIDE THANKS TO GENEROUS DONORS LIKE YOU.

# IMPACT ON STUDENTS

TO THE BENEFACTORS AND DONORS OF UH SCHOLARSHIP PROGRAMS, I WOULD LIKE TO THANK YOU ALL FROM THE BOTTOM OF MY HEART, AND ASK THAT YOU CONTINUE TO GIVE GENEROUSLY, IN SUPPORT OF EDUCATION.

WITHOUT YOU, I WOULD NOT HAVE BEEN ABLE TO BECOME A ROLE MODEL TO SO MANY YOUNG WOMEN AND MEN ACROSS THE COUNTRY. SCHOLARSHIPS HELPED ME GET TO WHERE I AM TODAY.

MAHALO NUI LOA!

ANGELA PEREZ BARAQUIO GREY

# Q&A

WITH FORMER MISS AMERICA,  
UH ALUMNA, FOUNDER OF THE ANGELA PEREZ  
BARAQUIO EDUCATION FOUNDATION AND  
SCHOLARSHIP RECIPIENT -  
ANGELA PEREZ BARAQUIO GREY

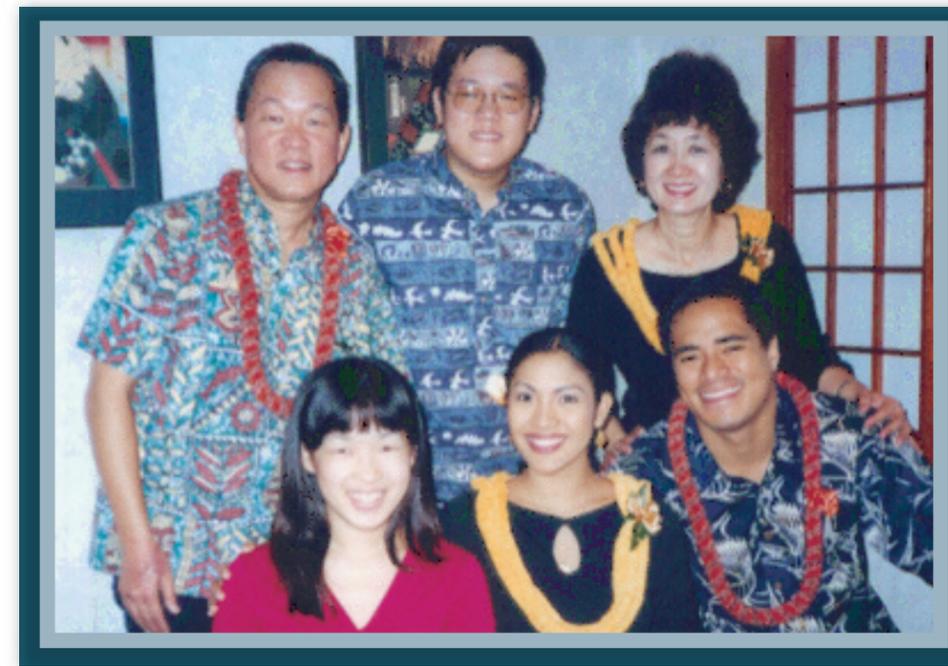

## TELL US ABOUT YOURSELF

I am the eighth born of ten children. My parents were both immigrants from the Philippines. I was the 2nd Miss Hawai'i to win the title of Miss America after Carolyn Sapp, and the first and only Asian Miss America crowned to date, in the 91 years of the pageant's history. I graduated from UH Mānoa and have taught in Catholic schools for five years.

I'm married to my high school sweetheart Tini Grey. We have four children and live in Southern California. I am a TV host/interviewer for the Hawai'i-based show "Living Local with the Baraquios" with my sisters. My husband and I also own a California-based Polynesian entertainment company called Isle Entertainment, Inc.

## HOW DID UH PREPARE YOU FOR SUCCESS?

I received my B.Ed. in Elementary Education with an emphasis in Speech, and later earned my M.Ed. in Educational Administration from UH Mānoa. My time at UH was memorable and life changing. I met so many wonderful friends and professors, and learned things I probably never would have at any other college. I greatly enjoyed being surrounded by an international student population. I'll never forget my hula class with Aunty Vicky Holt Takamine, which prepared me for my talent at Miss America.

L-R Top - Wendell, Deryck and Susan Foo  
Bottom - Marisa Foo, Angela Baraquio and husband Tini Grey

UH prepared me for success in life because I learned how to interact with all types of people and get a world-class education. This served me well as I traveled over 20,000 miles a month as Miss America 2001. My speech classes helped me in my work in the media and in front of live audiences. I was well-equipped to give talks to students, parents, legislators, and community members across the country.

## WHY DO YOU THINK PRIVATE SUPPORT IS IMPORTANT FOR UNIVERSITIES?

I truly believe that private support changes lives. Scholarships and grants changed my life for the better and I will be forever grateful to all the donors for the opportunities that I have been given through their generosity. Education is the key to success. Those who selflessly give to universities in support of higher education are nurturing excellence in the scholarship recipients. Their kindness cannot be measured because their involvement as a donor will always be a key factor in the students' success.

THE FOO FAMILY HAS GENEROUSLY FUNDED FOUR ENDOWED SCHOLARSHIPS THROUGHOUT UH MĀNOA. THE FIRST WAS ESTABLISHED BY DR. WENDELL FOO'S MOTHER EVELYN SIU FOO IN THE COLLEGE OF EDUCATION IN 1997. WHEN THE FAMILY SAW THE IMPACT OF THEIR SCHOLARSHIP, THEY ESTABLISHED SCHOLARSHIPS AT THE SHIDLER COLLEGE OF BUSINESS, THE WILLIAM S. RICHARDSON SCHOOL OF LAW, AND THE SCHOOL OF OCEAN AND EARTH SCIENCE AND TECHNOLOGY.

I HOPE OTHERS WILL JOIN ME IN THINKING ABOUT WHERE THE FUTURE OF UH HILO ATHLETICS LIES. IT IS IN OUR HANDS, AND OUR ACTIONS SPEAK LOUDER THAN WORDS.

DR. JOHN UOHARA

Prominent Hilo obstetrician/gynecologist **Dr. John K. Uohara** is building on his legacy in the community and funded an endowed scholarship for Vulcan Athletics. The Uohara Family Endowed Excellence Scholarship in Women's Volleyball will support members of the women's volleyball team at UH Hilo who demonstrate academic excellence off the court with a minimum 3.5 GPA. Uohara launched the fund with a \$20,000 gift, which UH Hilo has matched dollar-for-dollar, thanks to a limited-time matching gift program made possible by a donation from an anonymous donor.

Dr. Uohara has volunteered as team physician for the UH Hilo women's volleyball team since 1979. As the athletic department grew, Uohara extended his services to the women's teams in cross country, tennis, softball, golf and soccer.

When Uohara was inducted into the Vulcan Athletic Hall of Fame and celebrated for his longtime service to UH Hilo, he shared a moving story about the fulfillment of family dreams. He described his great-grandfather, who had scant medical training but delivered babies on the sugar plantation, and his grandfather, Shinichi Uohara, who had only a third grade education but whose hope was to someday see a qualified doctor in the family. John Uohara eventually fulfilled his grandfather's dream, becoming a member of the very

first graduating class of 1975 at the John A. Burns School of Medicine at UH Mānoa.

By endowing a scholarship in his family name, Dr. Uohara is perpetuating this legacy and helping young people from other families to fulfill their dream of attaining a higher education.

*Uohara scholarship recipient Patricia Snel takes a flying shot!*

**SSFM International, Inc.** is supporting their employees' academic pursuits to become outstanding engineers in our community. Thanks to their generosity, SSFM employees, who are also full-time undergraduate students majoring in civil and environmental engineering at the UH Mānoa College of Engineering, can receive financial support from the SSFM International, Inc. Scholarship Fund.

International accounting executive **James A. Hassett** established the James A. Hassett/Ernst & Young Endowed Scholarship for Accounting Excellence with \$60,000, and matching funds from Ernst & Young LLC for a total of \$120,000. The funds will provide scholarships to full-time students majoring in accounting at the UH Mānoa Shidler College of Business School of Accountancy. Hassett received an MBA from the University of Chicago and a BBA in 1973 from the Shidler College of Business. He was inducted into the Shidler Alumni Hall of Honor in 2004.

SUPPORT FROM SSFM UNDERLINES THE IMPORTANT LONG-TERM PARTNERSHIP BETWEEN THE COMPANY AND THE COLLEGE OF ENGINEERING. THESE SCHOLARSHIPS WILL HELP STUDENTS MAKE THE MOST OF THEIR TIME WITHIN THE COLLEGE AS THEY PREPARE TO FILL POSITIONS IN COMPANIES LIKE SSFM.

THIS GIFT WILL ASSIST THE COLLEGE IN ITS GOAL OF SUPPORTING THE WORKFORCE NEEDS OF HAWAII. TODAY MORE THAN EVER, THE ENGINEERING AND CONSTRUCTION SECTORS ARE CRITICALLY IMPORTANT IN BUILDING AND RENEWING THE INFRASTRUCTURE NEEDS OF THE COMMUNITY.

PETER CROUCH,  
DEAN, COLLEGE OF ENGINEERING

WE ARE PROUD OF OUR ALMA MATERS AND WANT TO HELP OUTSTANDING MCKINLEY STUDENTS ATTEND UH AND CONTRIBUTE BACK TO THIS COMMUNITY.

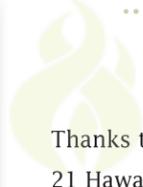

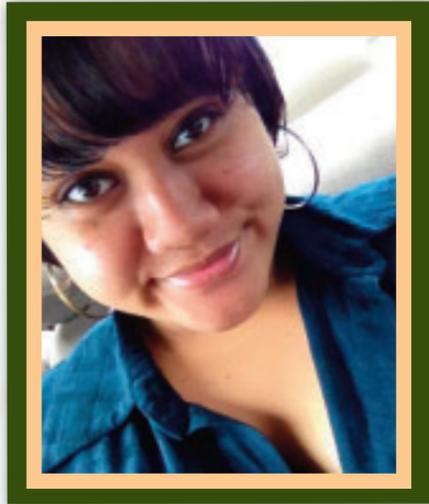

THE CHUN FAMILY

UH Mānoa alumni and global citizens **Chee Kwon Chun, Sau Chun Wong Chun,** and their daughter **Yen Chun** endowed a scholarship for UH

Mānoa freshman students who are graduates of McKinley High School. The scholarship will benefit students enrolled in an undergraduate degree in any area of study who demonstrate leadership, citizenship and service to the community. Chee Kwon and Sau Chun Wong Chun are both graduates of McKinley High School and the University of Hawai'i. While Chee Kwon passed away on December 27, 2010, three months short of his 100th birthday, his legacy will live on!

Thanks to generous support from the **Kaneta Foundation,** 21 Hawai'i students are enrolled in a new program at Kapi'olani Community College and receiving a transformative college experience. Through the King William Charles Lunalilo Scholars Project, students who had not previously considered higher education a viable option due to financial or other barriers participated in a summer bridge program and then a first year experience program at Kapi'olani CC.

I GRADUATED FROM A SCHOOL WHERE A LOT OF PEOPLE UNDERESTIMATED US. THEY UNDERESTIMATED ME BECAUSE OF WHERE I'M FROM (WAIMANALO) AND I FEEL THAT I PROVED A LOT OF THEM WRONG BECAUSE I WAS ON THE HONOR ROLL FROM SOPHOMORE YEAR UNTIL I GRADUATED. DURING MY SENIOR YEAR I WORKED FOR THE MAJORITY OF THE YEAR AND STILL KEPT UP MY GRADES.

THIS SCHOLARSHIP HAS BEEN EXTREMELY HELPFUL FINANCIALLY AND EDUCATIONAL WISE. IT'S HELPING ME TO BRUSH UP ON MY MATH AND WRITING SKILLS. I HAVE ALSO BEEN LEARNING ABOUT MY HAWAIIAN CULTURE AND IT MAKES ME FEEL PROUD TO ATTEND KCC.

I HOPE TO ONE DAY BECOME A PHYSICIAN SPECIALIZING IN EITHER GERIATRICS OR ONCOLOGY AND BE SOMEONE MY FAMILY AND FRIENDS CAN BE PROUD OF.

JENNIFER WONG-ALA, LUNALILO SCHOLAR 2012

**Roland Casamina,** founder and CEO of House of Finance, Inc. and founding president of the Filipino Community (FilCom) Center, established an endowed scholarship at the UH Mānoa Shidler College of Business. The Roland Casamina and House of Finance, Inc. Endowed Scholarship will provide tuition support for undergraduate business students who demonstrate leadership potential and a commitment to community service.

I'M JUST HAPPY TO BE ABLE TO GIVE BACK, NO MATTER HOW SMALL, TO THE UNIVERSITY THAT GAVE ME SO MUCH.

ROLAND CASAMINA

**DFS Hawaii,** which opened its doors at Honolulu International Airport 50 years ago, celebrated its anniversary by giving back to nonprofits in our community and supporting the University of Hawai'i. DFS has endowed a scholarship at the School of Travel Industry Management (TIM) at UH Mānoa in Peter Fithian's name. Fithian, founder and owner of Greeters of Hawaii, was instrumental in helping establish the first DFS (then Duty Free Shoppers) store at Honolulu International Airport in 1962.

WE ARE SO PLEASED TO BE ABLE TO HONOR PETER IN THIS WAY AND WE THANK HIM FOR ALL HE HAS HELPED US WITH IN HAWAI'I OVER THE YEARS.

ROBERT MILLER,  
ONE OF THE DFS FOUNDERS AND  
AN OWNER OF THE COMPANY  
ALONG WITH LVMH.

For the third year in a row, the **Robert Wood Johnson Foundation** awarded the School of Nursing and Dental Hygiene (SONDH) at UH Mānoa funds for scholarships through the New Careers in Nursing Program (NCIN). The focus of this award is to support second career nurses from groups underrepresented in nursing that are enrolled in accelerated degree programs. The NCIN Scholarship Program was launched in 2008 by the Robert Wood Johnson Foundation (RWJF) and the American Association of Colleges of Nursing (AACN) to expand enrollment in accelerated degree programs in schools of nursing while increasing diversity in the nursing workforce.

*Scholarships like this are key to nurturing a well-educated, diverse nursing workforce to provide quality care for our changing patient population.*

The **Schuler Family Foundation** created the Schuler Family Foundation Scholarship at the University of Hawai'i - West O'ahu. This scholarship will increase access to UHWO by providing support to high school graduates of Campbell, Kapolei, Nānākuli and Wai'anae High Schools who wish to attain a quality university college degree without having to leave their community or home.

The **Hawaii Food Industry Association Foundation** aka HFIA Rainbow Fever Program established the Hawai'i Food Industry Association Vulcan Fever Athletic Scholarship Endowment at UH Hilo with its gift of \$92,072.60.

"This is an exciting and intensely impactful gift for Vulcan Athletics," said Dexter Irvin, University of Hawai'i at Hilo director of Intercollegiate Athletics. "Scholarships for athletes are key to motivating students, encouraging their success and fueling recruitment efforts for the University, thus ensuring

we maintain a competitive position in the Pacific West Conference and the NCAA. This is a wonderful example of a partnership and we hope others will join HFIA and create new opportunities for students at the University."

Leeward Community College students will soon benefit from new scholarships thanks to **Kalaeloa Partners, L.P.** The Kalaeloa Partners Scholarship will assist part-time and full-time students who have graduated from Kapolei High School, Campbell High School, Nanakuli High School, Waipahu High School or Wai'anae High School.

The Shidler College of Business at UH Mānoa received a gift of \$120,000 from **Saltchuk Resources**, through its Hawai'i companies to establish the Young Brothers, Hawaiian Tug & Barge, Maui Petroleum, Hawaii Petroleum, Minit Stop, Aloha Air Cargo and Saltchuk Resources Scholarship Fund for the Distance Learning EMBA Program. The scholarships are supporting students in the 2012-14 Distance Learning Executive MBA program who are Hawai'i residents and live and work on Kaua'i, Maui, Moloka'i, Lana'i or Hawai'i Island.

SALTCHUK RESOURCES AND ITS HAWAII-I-BASED COMPANIES ARE COMMITTED TO DEVELOPING FUTURE BUSINESS LEADERS IN THE COMMUNITIES THEY SERVE BY HELPING NEIGHBOR-ISLAND RESIDENTS OBTAIN MBA DEGREES. NEIGHBOR-ISLAND RESIDENTS NOW HAVE AN OPPORTUNITY TO ENROLL AND RECEIVE SCHOLARSHIPS THROUGH OUR DISTANCE LEARNING EXECUTIVE MBA PROGRAM.

VANCE ROLEY, DEAN, SHIDLER COLLEGE OF BUSINESS

MORE THAN ONE THIRD OF OUR STUDENTS ARE SUPPORTED BY EITHER PRIVATE OR FEDERAL AID, AND OFTEN IT IS A COMBINATION OF THE TWO. ANOTHER THIRD OF OUR STUDENT BODY IS SERIOUSLY STRUGGLING, OFTEN DROPPING OUT OF SCHOOL TO SUPPORT CHILDREN OF THEIR OWN, OR EVEN THEIR PARENTS. DONORS PLAY A LARGE ROLE IN THE FUTURE SUCCESS OF MANY OF OUR STUDENTS.

AILEEN LUM-AKANA, FINANCIAL AID DIRECTOR, LEEWARD COMMUNITY COLLEGE

# SUPPORTING UH MĀNOA STUDENT-ATHLETES

THE UH FOUNDATION RECEIVES AND HOLDS ALL OF THE contributions and donations that are made to AKA and any of the booster clubs that support the UH Mānoa athletics programs. The Foundation has established separate accounts for AKA and for each of the booster clubs into which all donor contributions and donations are deposited. All of the funds received by the Foundation on behalf of AKA and each of the booster clubs are assets of the Foundation and are reported by the Foundation in its audited financial statements and on its annual Form 990 filed with the IRS.

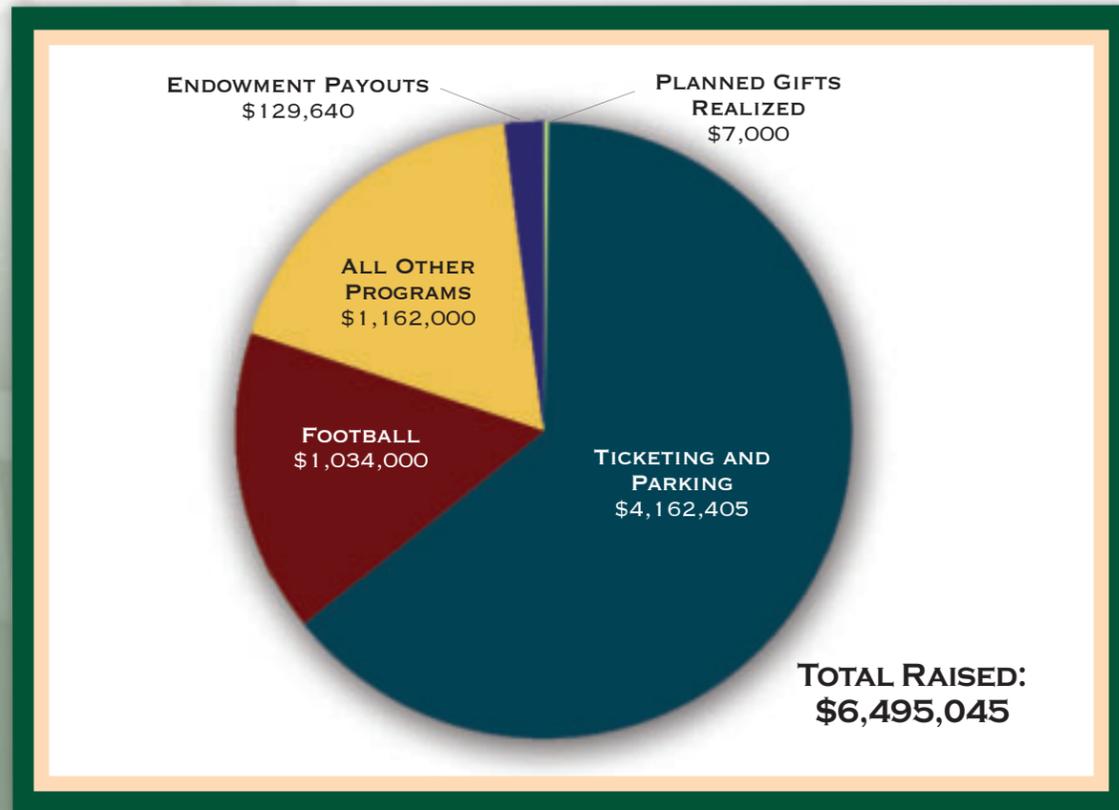

'ĀHAHUI KOA ĀNUENU (AKA) IS THE DESIGNATED ORGANIZATION RESPONSIBLE FOR THE COORDINATION AND OVERSIGHT OF ALL FUNDRAISING ACTIVITIES THAT ARE CONDUCTED TO BENEFIT AND SUPPORT THE UH MĀNOA ATHLETICS PROGRAMS. THIS INCLUDES, BUT IS NOT LIMITED TO, BOOSTER CLUBS, AND THE PREFERRED SEATING PROGRAM.

## AKA FUNDRAISING TOTAL FOR FY 2012

EXCERPT FROM THE AKA ANNUAL REPORT

WWW.KOAAUENUE.ORG

The **Hawaii Food Industry Association Foundation** aka HFIA Rainbow Fever Program awarded \$828,653.53 to fuel athletic scholarships at UH Mānoa. This gift established the Hawai'i Food Industry Association Rainbow Fever Athletic Scholarship Endowment at UH Mānoa.

THE RAINBOW FEVER PROGRAM WAS AN IDEA THAT WAS INTRODUCED BY THE LATE STAN SHERIFF AND THEN EXECUTED WITH RESOUNDING SUCCESS BY MANY SUPPORTIVE CUSTOMERS, GROCERY AND CONVENIENCE RETAILERS AND FOOD SUPPLIERS ACROSS THE STATE.

THROUGH AN UNPRECEDENTED INDUSTRY EFFORT, THIS PROGRAM RAISED OVER \$2 MILLION THROUGH THE SALE OF SELECT PRODUCTS, AND WE FEEL FORTUNATE TO BE IN A POSITION TO SUPPORT UH STUDENT-ATHLETES IN ATTAINING THEIR DEGREES.

BONNY AMEMIYA, IMMEDIATE PAST CHAIR, HFIA FOUNDATION

9/15/12 - Photo taken at first time out, during the game against Lamar at the Aloha Stadium. L-R: HFIA executive committee member Alan Nakamura; HFIA Executive Director Lauren Zirbel; HFIA executive committee member Bonny Amemiya; Vincent Baldemor president of 'Ahaui Koa Ānuenuē; UH Mānoa Chancellor Tom Apple; and UH Foundation Vice President for Development Greg Willems

Thanks to an \$875,000 planned gift, the UH Mānoa athletics department has established three endowments; the Wahine Volleyball Program Endowment, the Wahine Basketball Program Endowment and the Softball Program Endowment.

These funds will be used to underwrite the costs of scholarships, recruitment or other administrative purposes as determined by the respective coaches, with the agreement of the athletics director.

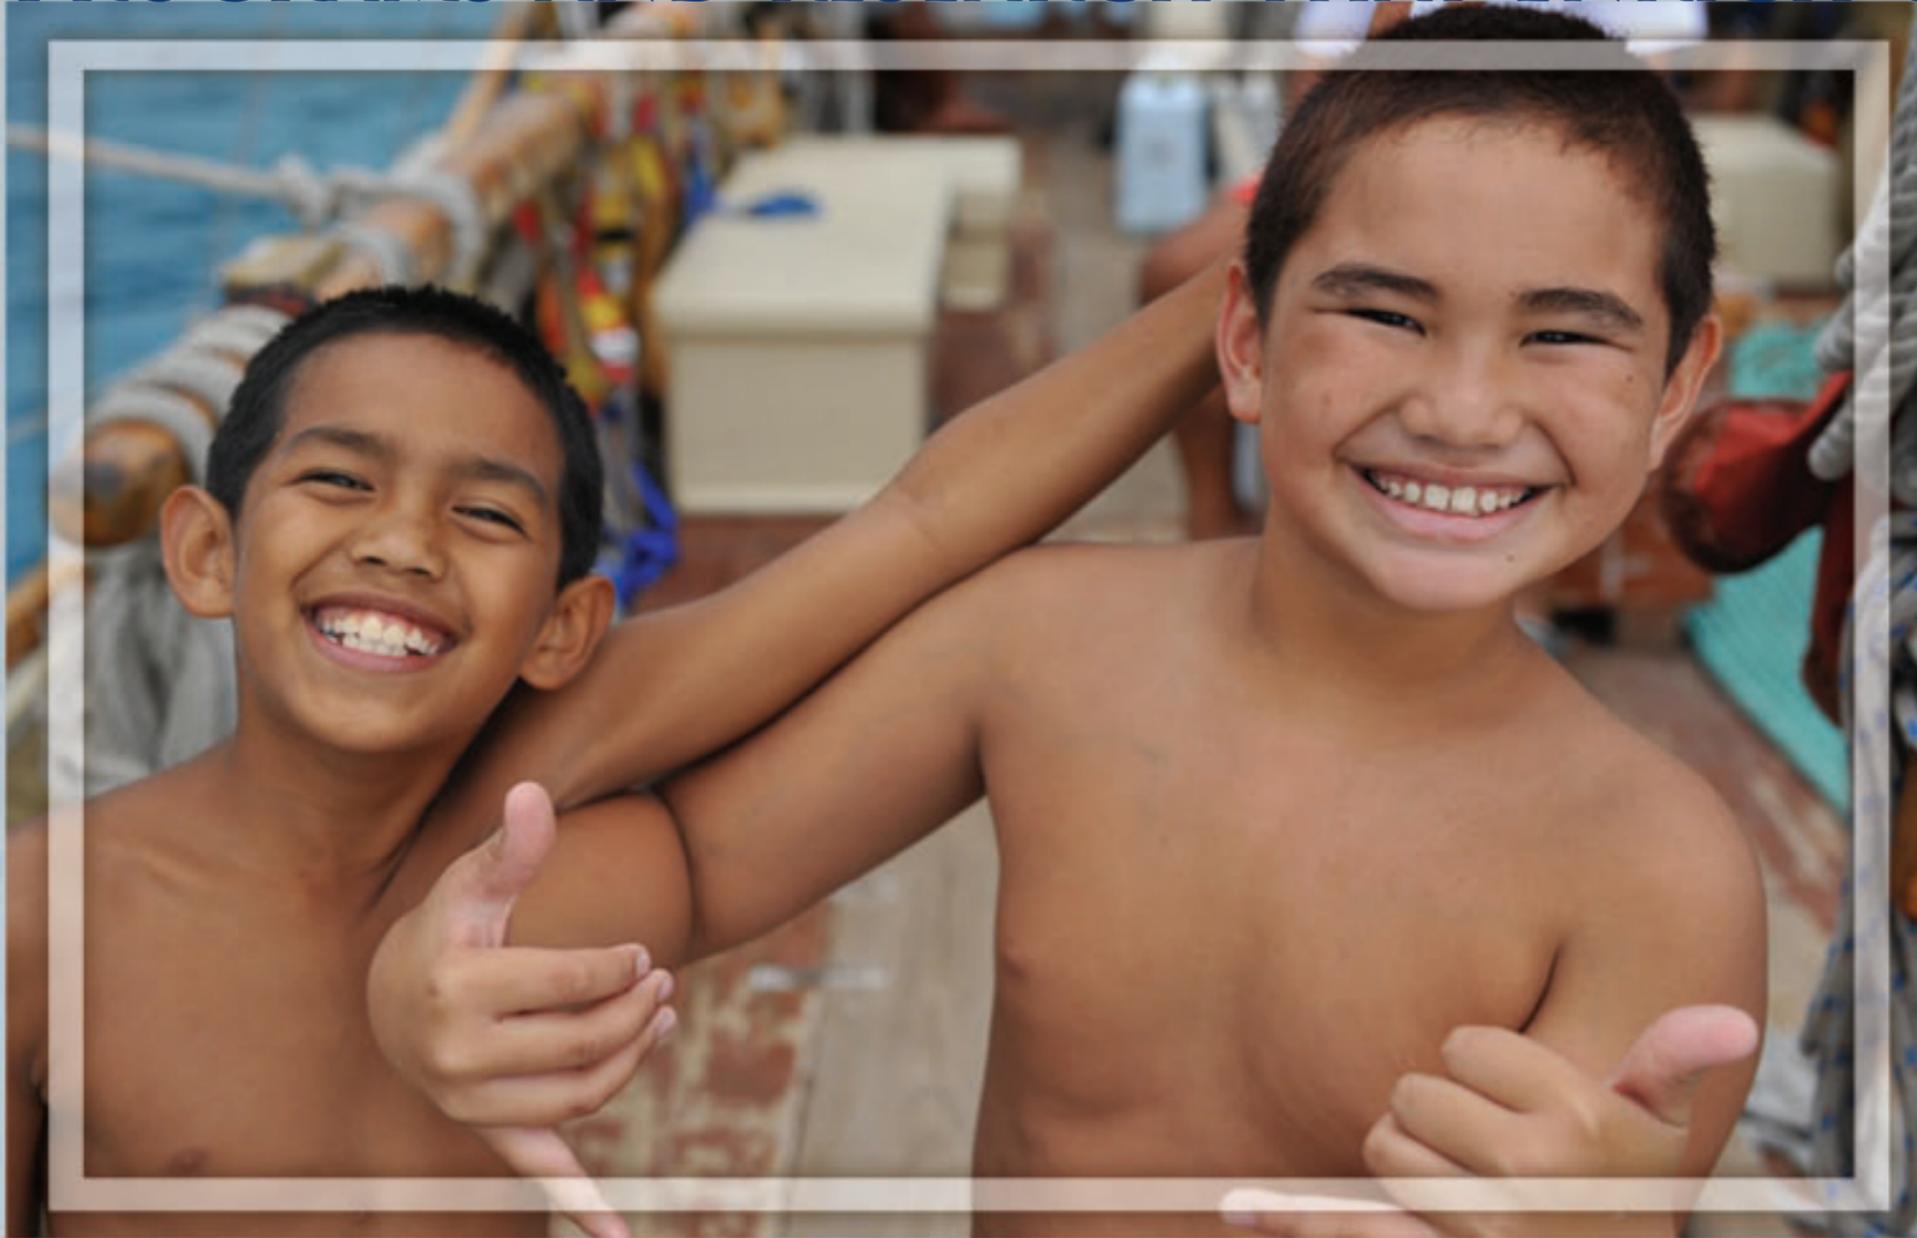

For 40 years, our university and Hawai'i have led the way in ensuring full opportunity for women to participate and succeed in athletics and academics. This generous gift recognizes the success of these programs and ensures support for our future outstanding student-athletes.

MY CLIENT DECIDED THAT MAKING A PLANNED GIFT OF THIS SIZE IS AN APPROPRIATE WAY TO CELEBRATE 40 YEARS OF WAHINE ATHLETICS. AS ENDOWMENTS, THESE FUNDS WILL PROVIDE SECURE, ONGOING FUNDING FOR THE UHM WAHINE ATHLETICS FOR YEARS TO COME.

ATTORNEY THOMAS MUI WHO REPRESENTS THE DONOR

# PROGRAMS AND RESEARCH THAT ENRICH OUR COMMUNITIES

*Image courtesy of 'Imiloa Astronomy Center's 'Aukai 'Imiloa youth program.*

BUILDING ON EXCELLENCE IN EARTH AND OCEAN SCIENCES, HEALTH and wellness, and astronomy, the University of Hawai'i is growing research and community programs to improve the quality of life in Hawai'i and around the world. In support of an ambitious yet attainable \$1 billion UH System research agenda, progressive donors are quickly demonstrating that this "little university in the Pacific" can make big waves.

Concerned about our state's limited resources, the Hau'oli Mau Loa Foundation is committed to developing Hawai'i's future leaders in environmental management with their support of six graduate assistantships for masters students pursuing degrees in conservation.

What kind of world do we want to live in? The Fred T. Korematsu Chair In Law and Social Justice at the William S. Richardson School of Law addresses matters of civil and human rights and social justice, while the Uehiro Foundation on Ethics and Education of Tokyo, Japan, is challenging educators, researchers and students to embrace the elements of philosophical thinking that help us to define who we are as human beings.

The Okeanos Foundation is supporting wayfinding and youth development programs at UH Hilo's 'Imiloa Astronomy Center of Hawai'i. Programs like the 'Aukai 'Imiloa (Oceanic Explorers) program for students between 8th and 12th grades inspire and engage tomorrow's explorers in modern science, technology, engineering and math.

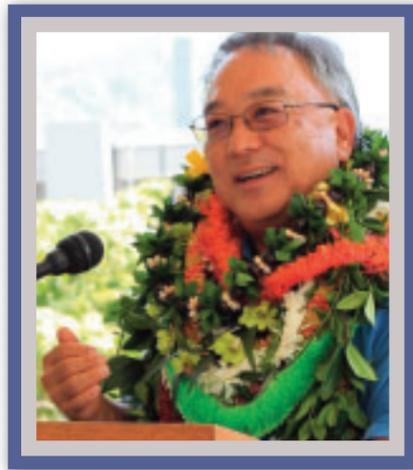

AFTER THE DEC. 7, 1941 ATTACK ON PEARL HARBOR, FRED KOREMATSU WAS ONE OF MORE THAN 120,000 INNOCENT JAPANESE AMERICANS ARRESTED AND RELOCATED TO INTERNMENT CAMPS IN THE NAME OF NATIONAL SECURITY. REFUSING RELOCATION, KOREMATSU WAS JAILED, BUT HE CHALLENGED THE "RACIAL EXCLUSION" DECISION ALL THE WAY TO THE U.S. SUPREME COURT IN 1944.

HE LOST; BUT 40 YEARS LATER, WITH THE HELP OF A TEAM OF YOUNG ATTORNEYS THAT INCLUDED ERIC YAMAMOTO, HE AGAIN CHALLENGED THE LEGALITY OF HIS INCARCERATION — AND, BY EXTENSION, THE DETENTION OF ALL JAPANESE AMERICANS.

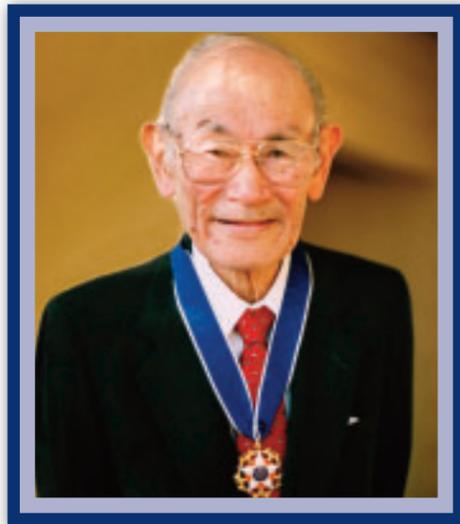

THE SUCCESS OF THAT FAMOUS 1984 CASE EXONERATED KOREMATSU AND SET THE STAGE FOR REPARATIONS PAYMENTS AND AN OFFICIAL APOLOGY FROM THE AMERICAN GOVERNMENT TO THOSE INCARCERATED SOLELY BECAUSE OF THEIR RACE DURING WORLD WAR II.

Professor Eric K. Yamamoto has been serving our community and students as the inaugural Fred T. Korematsu Professor of Law and Social Justice at the UH Mānoa William S. Richardson School of Law. Yamamoto is an award-winning author, advocate, teacher, and legal scholar. He has been teaching at Richardson since 1985 and is a nationally and internationally-recognized authority on issues of social justice, redress and reconciliation.

The purpose of the Korematsu Professorship is to empower its holder to speak, write, and teach with special authority on matters of civil and human rights and social justice; to train promising law students as collaborators on academic and community-based social justice projects; to engage social justice scholars and practitioners locally, nationally, and internationally; and to extend his or her social justice work and influence into new realms of intellectual and practical significance. It was launched with a generous leadership gift from **Sidney and Minnie Kosasa**, founders of ABC Stores in Hawai'i.

*Fred Korematsu and the Presidential Medal of Freedom, 1998.*

*Photo by Shirley Nakao, courtesy of the Korematsu Institute.*

The **Okeanos Foundation** and its founder **Dieter Paulmann** are helping 'Imiloa Astronomy Center of Hawai'i create youth development programs using traditional means of wayfinding and navigation to inspire and engage tomorrow's explorers in modern science, technology, engineering and math (STEM).

Their donation will support the continued growth and advancement of 'Imiloa's dynamic voyaging program for youth in grades 8-12 called 'Aukai 'Imiloa (Oceanic Explorers). The ocean-related immersion program focuses on wayfinding and navigation through academic and experiential activities.

Centered on a theme of exploration, 'Aukai 'Imiloa gives students an opportunity to learn about navigation through hands-on workshops, specialized training sessions, and sailing aboard deep-sea voyaging canoes.

THE ONLY WAY TO GROW SOMETHING IS TO CULTIVATE, NURTURE AND CARE FOR IT. THIS IS WHAT IS HAPPENING TO THE OPIO (YOUTH) WHO ARE FORTUNATE ENOUGH TO BE IN THE 'AUKAI 'IMILOA PROGRAM. I BELIEVE THIS APPROACH WILL HAVE DEEPER, LONGER LASTING IMPACTS FOR THE YOUTH AND THAT THESE POSITIVE EXPERIENCES WILL REMAIN WITH THEM FOR THE REST OF THEIR LIVES. ONE CAN ONLY IMAGINE WHAT THE COMPOUNDED IMPACTS OF THESE EXPERIENCES OVER A LIFETIME WILL PRODUCE.

FROM A PARENT OF AN 8TH GRADER AND 'AUKAI 'IMILOA PILOT PROGRAM PARTICIPANT, ĀNUENUE SCHOOL PALOLO, O'AHU

BECAUSE OF WORKFORCE SHORTAGES, THERE IS A CRITICAL NEED TO EDUCATE THE NEXT GENERATION OF RESEARCHERS PREPARING TO TACKLE THE DIFFICULT PROBLEM OF PRODUCING MORE FOOD ON LESS LAND IN A SUSTAINABLE WAY, USING LESS WATER AND ENERGY, TO FEED A GROWING POPULATION.

The College of Tropical Agriculture and Human Resources (CTAHR), at UH Mānoa received \$500,000 from **Monsanto Company** to establish the Monsanto Research Fellows Fund. The fund will assist graduate students pursuing a Masters or Ph.D. degree and post doctoral researchers at the College related to the study of plant science and protection. The new fund enables eligible students to enhance their educational and professional development through fellowship programs, including financial support for student research and participation in national professional conferences.

This gift is part of the Monsanto Fellows in Plant Breeding Program, designed to prepare students for successful careers in plant breeding and encourage the development of future leaders in the agricultural industry.

The UH Cancer Center received an early 2011 Christmas present from **Bank of Hawaii** employees who collectively raised more than \$33,000 for the Center as part of the bank's second annual Employee Giving Campaign.

The **Uehiro Foundation on Ethics and Education** of Tokyo, Japan pledged \$1.25 million to fund The University of Hawai'i at Mānoa Uehiro Academy for Philosophy and Ethics in Education. Located in the College of Arts & Humanities, the Academy will support research and education that prepares, supports, and sustains educators, researchers and students who are developing intellectually-safe communities of inquiry in their classrooms and schools. The Academy will serve students and teachers from Hawai'i, the continental U.S., Japan, and other international locations.

"THE CREATION OF THE UEHIRO ACADEMY WILL GREATLY ENHANCE THE WORK OF PHILOSOPHY FOR CHILDREN HAWAI'I. IT WILL EXPAND TO FOUR THE NUMBER OF EDUCATORS WHO WILL BE WORKING FULL-TIME TO EXTEND THE REACH OF P4C TO MORE SCHOOLS AND TEACHERS IN HAWAI'I AND ABROAD WHO HAVE SHOWN GREAT INTEREST IN THIS PHILOSOPHICAL APPROACH TO EDUCATIONAL TRANSFORMATION."

DR. THOMAS JACKSON, EXECUTIVE DIRECTOR, PHILOSOPHY FOR CHILDREN (P4C) PROGRAM IN THE DEPARTMENT OF PHILOSOPHY AT UH MĀNOA

Waikiki Elementary School and Kailua High School are the major P4C implementation sites on O'ahu that serve as Model Schools. During the Dalai Lama's April 2012 visit to Hawai'i, the world witnessed how the students have embraced mindfulness and ethical questioning - elements that have been integrated into their classroom experience through P4C.

P4C HAWAI'I IS BASED ON THE PREMISE THAT PHILOSOPHY COMES NATURALLY TO CHILDREN WHO CONTINUALLY WONDER ABOUT THE WORLD, AND THAT THE PROCESS OF PHILOSOPHICAL INQUIRY HOLDS VALUABLE LESSONS FOR BECOMING GOOD THINKERS.

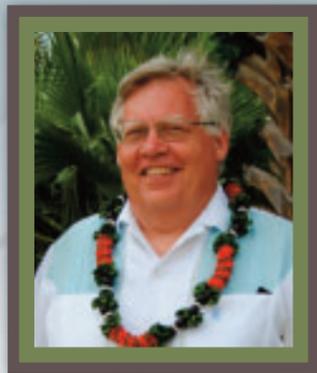

The University of Hawai'i Cancer Center received a \$50,000 gift from the **Ladies Auxiliary to the Veterans of Foreign Wars (VFW)**. The Ladies Auxiliary VFW was established in 1914 and has 520,000 members throughout the United States, Germany, Guam and Panama. The Ladies Auxiliary VFW members serve U.S. veterans and our communities in honor of the sacrifices and commitment made by all who have served in uniform. The Hawai'i chapter of the Ladies Auxiliary VFW has nearly 450 members throughout the islands.

MS. EVANS' GENEROUS GIFT GIVES US ADDITIONAL RESOURCES TO TAKE TIMELY ADVANTAGE OF OPPORTUNITIES THAT ARISE. PHILANTHROPIC FUNDS ALLOW US TO MOVE FORWARD QUICKLY IN OUR EFFORTS TO BUILD A WORLD-CLASS CANCER RESEARCH PROGRAM THAT WILL BENEFIT HAWAII AND THE GREATER COMMUNITY. WE ARE SO GRATEFUL TO MS. EVANS FOR THIS WONDERFUL GIFT.

MICHELE CARBONE, M.D., PH.D., DIRECTOR, UH CANCER CENTER

THE KNOWLEDGE I GAINED FROM MY CLASSES AT THE INFORMATION AND COMPUTER SCIENCE DEPARTMENT AT UH PROVED INVALUABLE IN MY CAREER AS A COMPUTER PROGRAMMER AND DATABASE ADMINISTRATOR. THIS ENDOWMENT IS MY WAY OF SHOWING MY APPRECIATION

JIM SARSET

The University of Hawaii Cancer Center and University of Hawaii at Manoa School of Ocean and Earth Science and Technology (SOEST) have each received \$1.5 million from **Denise B. Evans'** estate.

The Denise B. Evans Fund for Oceanographic Research supports students conducting oceanographic research and is administered by the Hawaii Institute of Geophysics and Planetology. This gift enables students to explore their full potential and research interests, knowing that they have the financial independence to take them where the science leads. In addition, the awards will demonstrate the excellence of each graduate student and this will benefit them as they pursue their research careers.

The first Denise B. Evans Fellowships in Oceanography have been awarded to:

- **Ms. Yoshimi Rii** (Oceanography Department) who received the two-year award
- **Ms. Alice Colman** (Geology and Geophysics Department) who received the one-year award

BY ESTABLISHING A QUASI-ENDOWMENT, THIS GIFT WILL CONTINUE IN PERPETUITY TO ENRICH THE LIVES OF OUR GRADUATE STUDENTS CONDUCTING OCEANOGRAPHIC RESEARCH ACROSS MANY DISCIPLINES – FROM MICROBES TO WHALES, FROM THE SEAFLOOR TO THE AIR-SEA INTERFACE, FROM OCEAN ACIDIFICATION TO CORAL REEFS, AND FROM SEA LEVEL RISE TO OCEAN ENGINEERING.

BRIAN TAYLOR, DEAN, SCHOOL OF OCEAN AND EARTH SCIENCE AND TECHNOLOGY (SOEST)

UH Manoa alumnus **James L. Sarset** is channeling his philanthropy to help make the world safer. With his \$100,000 gift, he established the James Sarset Endowed Fund for Information and Computer Science at the UH Manoa College of Natural Sciences Department of Information and Computer Sciences (ICS). This fund will support the department's work in cyber security and can also be used for other departmental priorities.

"The James Sarset Endowed Fund allows the ICS department to significantly advance cyber security knowledge and practice and serve as a learning laboratory and test bed for investigations and applications related to the generation, organization, access, preservation and secure use of digital information," said Department of Information and Computer Sciences chair Martha Crosby.

Graduates with a cyber security background help reduce the damage of malicious attacks and the fast spread of viruses, detecting and preventing intrusion using data mining, continuous authentication, secure coding and other state-of-the-art techniques.

The **Hau'oli Mau Loa Foundation** pledged \$324,560 to support UH students committed to careers in conservation in Hawaii. Six students pursuing masters degrees at the UH Manoa College of Tropical Agriculture and Human Resources Department of Natural Resources & Environmental Management (NREM) and UH Hilo, Tropical Conservation Biology and Environmental Science (TCBES) Program have been selected to receive these new graduate assistantships. This award, which includes a tuition exemption, regular stipend and funds for professional development, will help increase the number of qualified Hawaii students/ professionals pursuing environmental resource management careers.

*"This graduate assistantship is helping me devote more time to my research and developing a thorough master's thesis - without having to worry about earning enough money to pay for school."*  
~ Corie Yanger

Corie is enrolled in the UH Hilo TCBES program. Her goal is to become a teacher and mentor for young people interested in conservation, and to help facilitate communication between scientists and the community so that conservation efforts can move forward cooperatively.

WE ARE EXCITED TO SUPPORT OUR FIRST GROUP OF MASTERS LEVEL STUDENTS IN TWO OUTSTANDING EDUCATIONAL PROGRAMS WITHIN THE UH SYSTEM. WE BELIEVE THAT THESE SIX STUDENTS HAVE THE POTENTIAL TO BECOME FUTURE LEADERS IN THE ENVIRONMENTAL SECTOR IN HAWAII.

JANIS REISCHMANN, EXECUTIVE DIRECTOR, HAU'OLI MAU LOA FOUNDATION

# FACILITIES FOR THE FUTURE

**A UNIVERSITY IN CONSTANT MOTION REQUIRES FACILITIES TO MATCH.** Effective private and public partnerships are transforming long-anticipated dreams into reality for students and faculty throughout the University of Hawai'i system.

On the Big Island of Hawai'i, the Hawai'i Community College Pālanuanui Campus is a harbinger for the future. Thanks to a successful collaboration between State, Federal and County governments and Pālanuanui LLC (a partnership between Hunt Companies and Charles R. Schwab), this dynamic campus will soon be a magnet community college for the west side of Hawai'i Island and beyond.

In 1971, Sully Sullivan established the Mama Lau Cancer Research Center at the University in memory of his mother-in-law. This laboratory led to the development of what is today the University of Hawai'i Cancer Center. Just over four decades later, the Sullivan Family's legacy continues to grow with a significant donation by Joanna Lau Sullivan in support of the new state-of-the-art University of Hawai'i Cancer Center.

Recognizing that not all children on Hawai'i Island have convenient access to the cultural and dynamic programs at the 'Imiloa Astronomy Center of Hawai'i, the Gordon and Betty Moore Foundation is helping the Center take these programs on the road in the form of a high-tech interactive mobile science laboratory.

Artist's rendering of the future Pālanui campus

THE HAWAII COMMUNITY COLLEGE PĀLANUI CAMPUS IS A SHINING EXAMPLE OF A PROJECT THAT REQUIRED THE COLLABORATION OF STATE, FEDERAL, COUNTY AND PRIVATE ENTITIES, POOLING THEIR RESOURCES AND EXPERTISE TO INVEST IN WEST HAWAII'S FUTURE TO SERVE OUR COMMUNITY.

MY FAMILY AND I ARE DELIGHTED AND PROUD TO CONTINUE OUR SUPPORT OF THE UH CANCER CENTER. OUR GIFT UNDERSCORES OUR BELIEF IN THE IMPORTANCE OF CANCER RESEARCH AND IS A TESTAMENT TO OUR HOPE THAT THE CENTER WILL HAVE A POSITIVE IMPACT ON OUR STATE FOR MANY YEARS TO COME.

JOANNA LAU SULLIVAN

Philanthropist and University of Hawaii supporter **Joanna Lau Sullivan** made a \$3 million pledge to the University of Hawaii Cancer Center to help

build, furnish and maintain its new state-of-the-art research building scheduled to open in early 2013. In recognition of her generosity, the Center will name its new conference center the Sullivan Conference Center. In 2011 Mrs. Sullivan made another major gift to the Cancer Center that was combined with a gift from her late husband, Maurice J. "Sully" Sullivan, to create the J and M Sullivan Cancer Fund.

Joanna Sullivan's husband, "Sully" Sullivan, was a successful entrepreneur and legendary philanthropist who founded the Foodland grocery store chain with Joanna and her family in 1948. A prominent community leader, he recognized the importance of the University of Hawaii and supported a range of its programs. Sullivan also served as a UH Foundation trustee from 1978 to 1984.

In a significant step forward for the planned Hawaii Community College Pālanui campus, University of Hawaii officials accepted a ceremonial check for \$9.68 million from Pālanui LLC in January 2012 to begin construction on the first phase of the campus.

The Pālanui campus, which will be an extension of Hawaii Community College, will be the 11th permanent campus of the University of Hawaii System, and is expected to open its doors to students in the fall of 2014.

"This new campus is a powerful example of the university's efforts to bring higher education and access to a college degree to underserved areas," said UH System President Greenwood. "We are absolutely committed to doing that as part of the university's mission. The new Hawaii Community College Pālanui campus will provide educational pathways to a better future not just to Hawaii Island residents, but to the residents of the entire state."

The **Gordon and Betty Moore Foundation** awarded \$1.1 million to 'Imiloa Astronomy Center of Hawaii to take its science education programs on the road via a mobile science laboratory. The grant will be used to design and construct the mobile science unit; develop

curriculum, training and staffing plans; transport and operate the lab in communities across Hawaii Island; and evaluate the project's effectiveness.

By focusing on hands-on science education, 'Imiloa's new state-of-the-art mobile learning platform will build the center's capacity to engage and inspire young people in the fields of science, technology, engineering and math (STEM), and provide an environment where they can immerse themselves in interactive science experiences that allow them to play, investigate and experiment.

The **Harold K.L. Castle Foundation** awarded UH Maui College's Institute of Hawaiian Music (IHM) \$200,000 as part of a challenge grant. This is a 1:1 challenge grant. HKL Castle Foundation funds will be used for studio renovation and audio equipment.

Students will gain skills and demonstrate a capstone project in performance, recording technology, marketing and retail areas of the Hawaiian music industry. This special gift honors HKL Castle's grandson, John Baldwin and his love of Hawaiian music.

THE 'IMILOA MOBILE SCIENCE PROJECT WILL BE KEY IN EXPOSING FUTURE GENERATIONS TO THE WONDERS OF SCIENCE ON HAWAII ISLAND. WE ARE PROUD TO HAVE A ROLE IN CREATING AN OPPORTUNITY FOR A NEW LEARNING ENVIRONMENT THAT WILL STIMULATE SCIENCE EDUCATION ACROSS HAWAII.

VICKI L. CHANDLER, PH.D., CHIEF PROGRAM OFFICER FOR SCIENCE AT THE GORDON AND BETTY MOORE FOUNDATION

WITH THE HELP OF THIS GRANT, STUDENTS PARTICIPATING IN THE INSTITUTE OF HAWAIIAN MUSIC WILL BE MENTORED BY HAWAIIAN MUSIC MASTERS, TAKE CLASSES IN HAWAIIAN CULTURE AND LANGUAGE, AND PROFESSIONALLY RECORD THEIR MUSIC FOR RELEASE.

# FACULTY AND STAFF BUILD ON THEIR EDUCATIONAL LEGACIES

WHETHER FACULTY  
AND STAFF ARE STILL  
TEACHING, CONDUCTING  
RESEARCH AND WORKING  
WITHIN THE UH SYSTEM  
OR HAVE RETIRED, MANY  
CHOOSE TO ENHANCE  
THEIR ACADEMIC  
CONTRIBUTIONS  
THROUGH  
THEIR GIVING.

*Last Fall the UH Foundation hosted the first annual luncheon honoring retired faculty donors and their spouses at the Oahu Country Club. Because of what these retirees have given throughout their careers, their philanthropic support is all the more generous and touching. Some faculty members have been providing annual support to UH for more than 40 years and others have sold their homes and used a portion of the proceeds to endow research in their fields of study or endowed scholarships for students following in their footsteps.*

*The focus of their philanthropy at UH is as diverse as their fields of expertise yet each of their gifts illustrate their passion for public higher education.*

HERE ARE JUST A FEW STORIES ABOUT MEMBERS  
of our UH 'ohana who are partnering with the Foundation  
to build on their educational legacy.

FACULTY AND STAFF  
BUILD ON THEIR  
EDUCATIONAL  
LEGACIES

WITH ALMOST 60 CHINA-SPECIALIST FACULTY AND 150 GRADUATE STUDENTS PURSUING DEGREES IN CHINA-RELATED FIELDS, THE UNIVERSITY'S CENTER FOR CHINESE STUDIES IS ONE OF THE STRONGEST IN THE WORLD OUTSIDE OF ASIA. IT IS ABSOLUTELY WORTH SUPPORTING, WHICH IS WHY I DONATE TO THE BEST OF MY ABILITY.

CYNTHIA NING, ASSOCIATE DIRECTOR, CENTER FOR CHINESE STUDIES AT UH MĀNOA, AND U.S. DIRECTOR, CONFUCIUS INSTITUTE

Since joining the John A. Burns School of Medicine (JABSOM) as dean in March 2008, Dean **Jerris Hedges** has led by example in building a culture of philanthropy within the medical school among his faculty and staff through a successful internal giving campaign, now in its fifth year. In addition, JABSOM conducts an annual medical student calling campaign to MD alumni. Dean Hedges focuses consistently on finding win-win solutions with the school's hospital teaching partners and on engaging alumni and the broader community in supporting the medical school.

I SEE MY OWN PHILANTHROPIC SUPPORT AS A PART OF GIVING BACK TO THE COMMUNITY. I THINK IT IS AN IMPORTANT CONCEPT TO REALIZE THAT EACH OF US, NO MATTER WHAT OUR COURSE IN LIFE, CAN MAKE A DIFFERENCE IN THE LIVES OF OTHERS THROUGH PHILANTHROPIC EFFORTS.

JERRIS HEDGES, DONOR AND DEAN, JOHN A. BURNS SCHOOL OF MEDICINE

The Center for Philippine Studies at UH Mānoa celebrated **Dr. Aquino** and the Belinda A. Aquino International Philippine Studies endowment. This fund will promote and enhance academic and professional studies on the Philippines and Filipinos from an international, comparative, cross-cultural and interdisciplinary perspective.

Belinda Aquino, MA 1965 Political Science, University of Hawai'i and Ph.D. 1974 Political Science, Cornell, is an internationally recognized expert on contemporary Philippine society, politics and culture. Currently she serves as a professor emeritus at the School of Pacific and Asian Studies where she was professor of Political Science and Asian Studies, as well as longtime director of the Center for Philippine Studies.

**Dr. Ching Yuan (C.Y.)** and **Ming Ming (Ming) Hu** established an endowment to provide funding for international student exchange opportunities. Their charitable trust was celebrated in 2011.

The Ching Yuan and Ming Ming Hu Student Exchange Endowment will support undergraduate and graduate students from China, Taiwan or Hong Kong who are pursuing studies in the agriculture field. The exchange will offer international students an opportunity to interact with faculty and students at the UH Mānoa College of Tropical Agriculture and Human Resources (CTAHR), and learn about the unique agricultural environment Hawai'i offers and new developments in the industry.

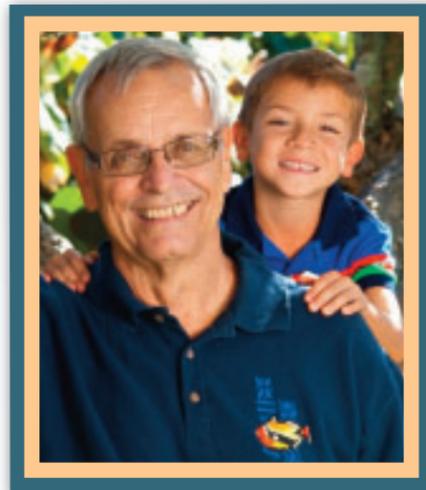

**Kathleen Jaycox** established two endowments with a deferred gift to encourage and reward students who are taking and/or have just completed remedial math and English courses at Honolulu CC or Windward CC. These student success funds may be used for scholarships for costs associated with college attendance and other related expenses such as bus passes, childcare, awards to reward successful completion in these courses, and/or to pay mentors to teach and encourage fellow students.

The **Thomas D. Burke** Endowed Scholarship was established in memory of Thomas Burke, by friends, family and Tom's wife Jerilyn Burke. This scholarship will support Kapi'olani CC students who are pursuing a degree or certificate in the Travel and Tourism or Hotel and Restaurant Operations degree programs. It will also support students taking pre-Travel Industry Management courses who intend to transfer to the School of Travel Industry Management at UH Mānoa.

Tom Burke enjoyed a long and successful career in the hospitality industry. He worked with Outrigger Hotels for 32 years, ultimately serving as the Vice President of Operations. In 1999, Tom was responsible for the successful launch of the new brand and strategic direction and operations of the 15 Waikiki hotels that comprise the OHANA group.

MARLENE AND I HAVE TRIED TO BE GENEROUS OVER THE YEARS. PLANNED GIVING IS A WONDERFUL WAY TO HELP THE LAW SCHOOL MEET ITS NEEDS OVER THE LONG HAUL WHILE ALSO PROVIDING FOR OURSELVES.

AVI SOIFER, DEAN, WILLIAM S. RICHARDSON SCHOOL OF LAW

## OUR UNIVERSITY. OUR HAWAII. OUR FUTURE.

THE LIGHT OF KNOWLEDGE AT THE UNIVERSITY OF HAWAII SHINES BRIGHTLY BECAUSE OF YOUR GENEROSITY. YOUR PASSION IS THE FUEL. YOUR VISION IS THE FLAME.

YOUR GIFTS TO OUR 10 CAMPUSES WILL ILLUMINATE THE FUTURE IN WAYS THAT CANNOT BE PREDICTED NOR EVEN IMAGINED. HOW CAN YOU ANTICIPATE THE VALUE OF CANCER RESEARCH, OR PUT A PRICE ON CONSERVATION? HOW DO YOU QUANTIFY AN INSPIRING TEACHER, OR SCORE AN ATHLETE WHO WINS IN LIFE? YOUR GIFTS ARE BEYOND MEASURE BECAUSE THERE ARE NO LIMITS TO THE POSITIVE BENEFITS THAT THEY REAP.

ON BEHALF OF OUR UNIVERSITY, OUR HAWAII AND OUR FUTURE, MAHALO FOR PLANTING THE TREES OF KNOWLEDGE THAT WILL ONE DAY BRING SHADE TO THE GENERATIONS THAT FOLLOW.

MAHALO
